Output:

The screenshot shows a web browser window titled "COTS PPB" displaying a list of tasks. The tasks are categorized as "Tugas Besar" and "Tugas Terdekat". Each task card includes a title, description, status (e.g., SELESAI, TERLAMBAT), and a "Tambah Tugas" button.

Below the browser is an IDE interface (VS Code) showing the "main.dart" file for a Flutter application. The code imports packages and defines a main function that runs the CotsApp class. The IDE also displays build logs and navigation tools.

The screenshot shows a web browser window titled "COTS PPB" displaying a list of tasks. The tasks are categorized as "Daftar Tugas" and include search filters for "Semua", "Berjalan", "Selesai", and "Terlambat". Each task card includes a title, description, status, and a date.

Below the browser is an IDE interface (VS Code) showing the "main.dart" file for a Flutter application. The code imports packages and defines a main function that runs the CotsApp class. The IDE also displays build logs and navigation tools.

The screenshot shows a web browser window titled "COTS PPB" displaying a "Detail Tugas" page. The page contains the following information:

- Judul Tugas: aaaa
- Mata Kuliah: Pemrograman Lanjut
- Deadline: 2026-01-04
- Status: SELESAI (Completed)

A message below states: "Tugas sudah selesai" (Assignment is completed) with a checkmark icon. A note says: "Centang jika tugas sudah final."

The right side of the screen shows the "main.dart" file code in the Explorer and Editor panes:

```
import 'package:flutter/material.dart';
import 'cots/presentation.dart';

void main() {
  runApp(const CotsApp());
}

class CotsApp extends StatelessWidget {
  const CotsApp({super.key});
  @override
  Widget build(BuildContext context) {
    return MaterialApp(
      debugShowCheckedModeBanner: false,
      title: 'COTS PPB',
      theme: ThemeData(
        home: const Dashboard(),
      ),
    );
  }
}
```

The terminal pane shows the command: PS D:\PERKULIAHAN\TUGAS KULIAH SEMESTER 5\PRAKTIKUM PPB\COTS\Flutter_application_1> flutter run

The bottom right corner features a "Build with Agent" AI integration interface.

The screenshot shows a web browser window titled "COTS PPB" displaying a "Tambah Tugas" (Add Assignment) form. The form fields include:

- Judul Tugas: (empty input field)
- Mata Kuliah: (empty dropdown menu)
- Deadline: (empty input field)
- Pilih tanggal: (empty date picker)
- Tugas sudah selesai: (checkbox, unchecked)
- Catatan: (empty text area)
- Catatan tambahan (opsional): (empty text area)

At the bottom are "Batal" and "Simpan" buttons.

The right side of the screen shows the "main.dart" file code in the Explorer and Editor panes, identical to the previous screenshot.

The terminal pane shows the command: PS D:\PERKULIAHAN\TUGAS KULIAH SEMESTER 5\PRAKTIKUM PPB\COTS\Flutter_application_1> flutter run

The bottom right corner features a "Build with Agent" AI integration interface.
